Deaf Gus,

After we spoke yesterday I thought more about some of what I told you and about what I did not tell you -even indicate. By what I did not indicate I had whole areas in mind. Of what I did go into, not having thought of it for some time, more came to mind.

I think of the show what I told you I think. I'm reasonable certain it will miss what is quite important - and not secret.

I also wondered about you book. What it will be, who your coauthor is, etc.

If it will be on a similar or related subject, perhaps we should talk about it.

I won't be staying up for the show. I'll appreciate a transcript if there is one and a cassette after airing.

Sincerely,
